

04/04/2005

Description of Test: Calumet City Police Dept will be doing an in-situ evaluation of the Cisco Systems prototype 4.9 GHz Public Safety WLAN radios. This evaluation will include operation under mobile conditions to evaluate the radios and the operational characteristics of 4.9GHz radio, prior to adoption of this service by the Calumet City Police.

The systems will be operated in accordance with Part 5 of the FCC rules.
