File Number- 0233-EX-PL-2013

Confirmation Number- EL724923

To Whom It May Concern,

The FCR Radar we at Camber are going to operate from our building in Huntsville, AL is in support of a government project called RACRS, the Risk and Cost Reduction System. The RACRS lab is a government owned lab with the agency being the US Army, PEO Aviation contract number W58RGZ-08-F-0016. Under these circumstances, I do not believe Camber should be paying a fee for an Experimental License. Once again, it is a government owned lab, government owned Radar equipment, and all through a government contract. If there were some sort of a fee, I believe we would then have to write that into the contract and charge the government anyways.

Thank you,

Jason Dulon
