Carl:

I received a call from Ed Khouri at Trimble Navigation (ph# 408-481-8642) with the new information regarding power and emission designator for items 4C and 4E on page 2 of FCC Form 442.

4E. 40W ERP
4C. Inmarsat-C, G1D, 1200 BPSK

If this information is what you require I will make the changes on our form with the original signature on page 5 as requested and mail it to you ASAP.

Regards,

Dan Anderson
Applications Engineer
Environmental Group
