Subject: Additional Information Request

Message:

Please see the following request from federal agency and respond:

Please advise the applicant that NASA already has a satellite in orbit which will be communicating with a ground station in Logan, UT in the 468.45-469 MHz band that was requested by the applicant.

Given that the applicant has a good deal of time before they need this STA we would like to see if it is possible for them to change the frequency band in order to avoid interfering with NASA operations.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of September 24, 2020 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
