

EXHIBIT 2

Operation Dates

CBS Communication Services Inc. (CCS) would like to clarify the requested operation dates. CCS requests the earliest possible Operation Start Date to facilitate setup and testing prior to the Presidential Inauguration on January 20, 2001. CCS is requesting an STA due to the short amount of time before the Inauguration; however, CCS wishes to conduct further testing of the wireless camera system after the Inauguration as well. There fore, CCS requests an Operation End Date of March 1, 2001.
