Coordinates 047- 38.00 N 122- 03.57 W

As been our past practice, Broadcast Sports Technology, a manufacturer and provider of video transmission equipment for remote video and film production sporting events will be providing equipment and expertise.

Most of the broadcast auxiliary frequencies which CCS would normally request are unavailable, as they are used by Part 74 licenses on site and in the area. Therefore, in addition to the frequencies for which CCS and BST has existing authority to use, we hereby request, for the period of August 10-17 1998 use of the following frequencies:

2545	4	17MOF9W
2569	4	17MOF9W
2591	4	17MOF9W

All operation will be on a non-interference basis to licensed users. CCS will use the enclosed DataWorld Frequency Search to coordinate use of the requested frequencies with licensed entities and CCS will obtain all necessary concurrence, as has been done in previous instances.

All operation will cease on these frequencies upon report of any interference. The contact person will be the undersigned. I can be reached at:

Tel # (202) 457-4518
Fax # (202) 457-46185
