

CBS COMMUNICATION SERVICES, INC.

FCC Form 442
Questions 3, 10
December, 1997

EXHIBIT 1
Requested Modification

This application requests modification of license for Station WA2XKY to change the specified location of the station from Fort Lauderdale, Florida to Coral Springs, Florida, for mobile use within 5 km of the following coordinates at Coral Springs:

North latitude 26-16-42

West latitude 80-17-33

The modification is necessary to reflect the recent relocation of the plant manufacturing facility at which the experimental license is utilized from Fort Lauderdale to Coral Springs, approximately 14 miles northwest of the previous Fort Lauderdale location. No change is proposed in any other license parameters or in the authorized use of the frequencies at other locations throughout the continental United States (CONUS).
