

02/28/2018

To Whom It May Concern:

This is to certify that:

CDE Lightband deploys and/or manages radio frequency equipment.

The RF experimentation will be conducted by following a strict Test Plan defined and approved by CDE Lightband in a controlled environment.

CDE Lightband will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

CDE Lightband has extensive RF experience and expertise deploying RF networks and has a number of RF engineers on permanent staff.

For the above reasons, I believe CDE Lightband meets the Eligibility criteria for an Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

Ervin Evangelista

Ervin Evangelista

Network Engineer Manager
