

AMENDMENT

Verizon Communications Inc. hereby amends the application for the pro forma transfer of control of Cellco Partnership's experimental authorizations (File No. 0031-EX-TU-2020) (the "Application") to include experimental license call sign WL2XAO. This authorization was issued by the Office of Engineering and Technology on June 9, 2020, after the Application was filed. Accordingly, the pending application is being updated to include the newly issued authorization.¹

¹ Due to technical difficulties with the Experimental Licensing Database, the licensee has been unable to file a pro forma transfer of control application for call sign WL2XAO, and is therefore amending its pending application.
