To Whom It May Concern:

This is to certify that:

Celona deploys and/or manages radio frequency equipment. The RF experimentation will be conducted by following a strict Test Plan defined and approved by Celona in a controlled environment.

Celona will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

Celona has extensive RF experience and expertise deploying RF networks and has a number of RF engineers on permanent staff.

For the above reasons, I believe Celona meets the Eligibility criteria for an Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

A handwritten signature in black ink, appearing to be 'Madhu Nunna', with a horizontal line extending to the right.

Madhu Nunna
