

Special Temporary Authority to Test Radar Instrumentation

FRN: 0021252267

Form 442 File Number: 0025-ST-EX-2013

Reid Crowe

Center for Remote Sensing of Ice Sheets (CRSIS)

University of Kansas, Lawrence, Kansas

8 February 2013

To whom it may concern:

Operation in the areas described by the STA application file number 0025-ST-EX-2013 has been coordinated with the Society of Broadcast Engineers. Technical details of the experiment and areas of operation were provided to John Antonuk, frequency manager for Northern Alaska, and Gary Becknell, frequency manager for the Norfolk, VA area. Mr. Antonuk and Mr. Becknell have both approved the operation of the CReSIS radar in the 180-210MHz range.

Sincerely,

Reid Crowe
Graduate Research Assistant
