

Correction to exhibit:

Antenna Info Area of operation Info and other Tech info

FRN: 0021252267

Form 442 File Number: 0614-ST-EX-2012

Reid Crowe

Center for Remote Sensing of Ice Sheets (CRISIS)

University of Kansas, Lawrence, Kansas

10 August 2012

The document titled "Antenna Info Area of operation Info and other Tech info" also titled "Special Temporary Authority to Test Radar Instrumentation" contains an error on the duration of the requested STA. Section B, paragraph one should say:

A ~~6-Month~~ two day STA is requested to allow the testing of ice penetrating radar using an aircraft mounted system. The height of the transmitter will be at 1500 feet AGL and will radiate directly downward from the aircraft.
