GPS User Notification

Mr. John Hepson, FAA/AWP coordinated our request and assigned NG T060493 to the frequency 1575.42 MHz.

Upon granting of the license, Cessna Long Beach Citation Service Center (CSC) will notify FAA officials at Long Beach Daugherty Field (LGB) and any other persons, agencies or organizations as may be requested by the FAA, FCC or NTIA that Cessna will be using a GPS re-radiator at this facility.

Stop Buzzer POC Information
