This email is your AFTRCC coordination.

This coordination includes this header information, DOD Area Frequency Coordinator comments and AFTRCC comments. These messages must not be separated.

This coordination is advisory only and not binding on the FCC. Applicants are advised that this coordination does not constitute a judgment that the frequency(ies) is best suited for the applicant's purpose nor that the frequency(ies) is exclusive to the applicant. Flight Test frequencies are shared and may require scheduling with other users.

In return for AFTRCC's processing of the applicant's coordination request, the applicant agrees to release and hold harmless AFTRCC, its officers, directors, agents, members, and representatives from any claims, losses or expenses that may arise from the use of the frequency.

This coordination is not an authorization to transmit. A copy of this coordination must accompany application to the FCC.

Wayne,

Concur with request on a not-to-interfere basis to Flight Test Telemetry.

Please provide Stop Buzzer POC.

Vr,

Rob

Scott et al,

I have enclosed the entire application package for your review as I am sure this application will generate questions during your coordination process.

AFTRCC concurs with and requests DoD MIDLANT AFC concurrence/coordination on the following Experimental License request.

Applicant:

Chemring Sensors & Electronic Systems

23031 Ladbrook Dr.

Dulles, VA 20166

POC: Maria Brown (202-973-4281)

Frequencies: 1435-1525.0 MHz/2360-2395.0 MHz/5091-5150.0 MHz

Station Class: XT/MO

Emission: 6G80P0N

Power: 1.200000mW ERP

Location: (1) Dulles, VA (38-58-47 N 77-29-03 W)

MIRAD: .50KM

(2) Charlotte, NC (35-08-21 N 80-58-32 W)

MIRAD: .50KM

Dates: 2017-12-01 thru 2019-12-01

(Note that AFTRCC only coordinates non AMT functions in the AMT bands for 2 year periods)

AFTRCC comments: strict non-interference basis to Flight Test telemetry.

Device must not radiate in free space and beam must be focused into the ground when powered on. Operator shall monitor when operating to ensure no spurious signals are propagating outside of the .5KM radius from center point.

Please reply via return email as to concurrence, non-concurrence, scheduling, or additional comments.
