Special Conditions:

- (1) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (2) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (3) Prior to equipment authorization or a determination of compliance, the device must be accompanied by a conspicuous notice worded as follows: "This device has not been authorized as required by the rules of the Federal Communications Commission. This device is not, and may not be, offered for sale or lease, or sold or leased, until authorization is obtained."
- (4) Licensee understands that this equipment must not be produced or procured for commercial or federal (DoD) use within the U.S in the band 3300-3650 MHz.
- (5) The emergency contact person David Case (303) 523-2139 or Gerard Thorpe (408) 527-7097, shall be available during all testing in order to shutdown the equipment if interference is caused to government operations.
- (6) Licensee understands that future operations or adoption of this equipment must be modified to work in an appropriate band for commercial WiMax service in the United States.
- (7) Equipment shall contain a label stating "This equipment operates on frequencies allocated primary to the Federal Government and will only be used during the testing for Experimental License under Callsign WD2XUZ. Use of this equipment after the term of this license is not authorize within the United States"
- (8) Operating powers shall not exceed those allowed under Part 15 of the FCC rules.
