

11/26/2019

Request to update radio license call sign WJ2XUT.

The change for the current license is to expand it to operate across the Cisco campus in San Jose CA as described in the application,

A majority of the testing will be indoor confined to several Cisco facilities and one or two warehouses within the area of requested operation as covered in the application.

Outdoor systems will be mounted with antenna heights less than 15 feet off any roof.
