To whom it may concern:

I am replying to correspondence #38311, which was sent to the City of Denver August 8th, 2017 to alert us of an error in our application. In our 6 emissions records, we erroneously had an "X" in the "emissions designator" field. That has since been corrected and the emissions designator now reads "8M23G9W".

Based on the FCC correspondence, we believe this was the only edit required to move forward with the application process.

Thank you for your time,
