DISMISSED-WITHOUT PREJUDICE

Dear Mr. Blake Busse,

This refers to application, File No. 0161-EX-CN-2018, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. Because the guaranteeing of GPS initialization lock on all fire and emergency equipment before those resources leave the fire station is an operational service. It is not being used for experimental testing of a GPS reradiator. GPS reradiator use is limited for the purpose of testing RNSS equipment/systems.
