April 22, 2004

Federal Communications Commission
Gettysburg, PA 17325

To Whom It May Concern:

The City of Manassas had initiated a Broadband Internet Pilot Project to test powerline communication equipment and to determine if there was a market for the technology. The testing was completed under an Experimental License (Call Sign WD2XCZ) granted April 10, 2003.

The City has completed the Pilot Project and has moved into full commercial deployment. Therefore, the City respectfully releases its experimental license and call sign (WD2XCZ).

Please feel free to contact me if I can be of further assistance.

Sincerely,

Brett Massey
Energy Services Manager
