Attn Amy Long

Re: Consent to Temporary Use of EBS Spectrum in  
Kansas City, Kansas in Advance of Commercial Launch

Dear Amy:

Public Television 19, Inc. ("PT19") is the licensee of EBS Station WLX531 in Kansas City, Kansas. That Station is leased, pursuant to a De facto Transfer Lease to SCXX, LLC, a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). Clearwire would like to temporarily use Channels A1, A2, A3 and A4 (the "Spectrum") from March 8, 2010 through March 8, 2011 pursuant to an Application for Experimental Authority to be filed with the Federal Communications Commission ("FCC") by another wholly-owned subsidiary of Clearwire, Clearwire Spectrum Holdings III, LLC

Through this use, Clearwire intends to validate the features and quantitatively measure performance of the 4G Radio Access Network infrastructure in a field and lab environment. It also intends to ascertain performance of WiMAX and 4G technology under various interference environs, as well as varying channel and loading conditions. Clearwire believes that this testing will ensure a better and more robust WiMAX and 4G service, thus, ensuring a better customer service, including with respect to educational services. Clearwire will also collaborate with Sprint on portions of the testing, and may provide Sprint certain independent rights to conduct testing. Although Clearwire is presently requesting your consent to the entire testing plan, to the extent that Sprint conducts independent testing, we will provide you with additional information regarding that process.

By its signature below, PT19 consents to Clearwire's use of EBS Channels A1, A2, A3 and A4 until March 8, 2011 under the terms and conditions set forth in this letter. Clearwire agrees to take all necessary steps to cause no interference to any current operations of EBS Station WLX531. There will be no commercial use of the spectrum pursuant to this experimental application. PT19 believes that its consent to this trial will benefit it and other EBS licensees. The parties acknowledge that this letter will be attached to the application for Experimental Authority to be filed by Clearwire with the FCC's Office of Engineering and Technology.

Re: Consent to Temporary Use of EBS Spectrum in  
Kansas City, Kansas in Advance of Commercial Launch

Dear Jose:

Hispanic Information and Telecommunications Network, Inc. ("HITN") is the license of EBS Station WLX709 in Kansas City, Kansas. That Station is leased, pursuant to a grandfathered lease to Fixed Wireless Holdings, LLC, a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). Clearwire would like to begin the use of those channels prior to commercial launch of that spectrum. Clearwire would like to temporarily use Channels B1, B2, B3 and B4 (the "Spectrum") from March 8, 2010 through March 8, 2011.

Through this use, Clearwire intends to validate the features and quantitatively measure performance of the 4G Radio Access Network infrastructure in a field and lab environment. It also intends to ascertain performance of WiMAX and 4G technology under various interference environs, as well as varying channel and loading conditions. Clearwire believes that this testing will ensure a better and more robust WiMAX and 4G service, thus, ensuring a better customer service, including with respect to educational services. Clearwire will also collaborate with Sprint on portions of the testing, and may provide Sprint certain independent rights to conduct testing. Although Clearwire is presently requesting your consent to the entire testing plan, to the extent that Sprint conducts independent testing, we will provide you with additional information regarding that process.

HITN agrees to permit temporary operation of the Spectrum under the terms and conditions set forth in this letter. Clearwire agrees to ensure that all that all operation over the Spectrum will be in accordance with the rules and regulations of the Federal Communications Commission and the Lease Agreement between the parties. Clearwire will be filing an application for an experimental authorization to do this testing, and will do the testing in compliance with that application and the associated authorization that will be issued by the Commission.

Clearwire will also work with you to provide you with devices and/or services in accordance with our Lease Agreement once commercial services are available in Kansas City area.

Re: Consent to Temporary Use of EBS Spectrum in  
Kansas City, Kansas in Advance of Commercial Launch

Dear Steve:

The Source For Learning, Inc. ("SFL") is the license of EBS Station WHR523 in Kansas City, Kansas. That Station is leased, pursuant to a De Facto Transfer Lease to NSAC, LLC, a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). Clearwire would like to begin the use of those channels prior to commercial launch of that spectrum. Clearwire would like to temporarily use Channels D1, D2, D3 and D4 (the "Spectrum") from March 8, 2010 through March 8, 2011.

Through this use, Clearwire intends to validate the features and quantitatively measure performance of the 4G Radio Access Network infrastructure in a field and lab environment. It also intends to ascertain performance of WiMAX and 4G technology under various interference environs, as well as varying channel and loading conditions. Clearwire believes that this testing will ensure a better and more robust WiMAX and 4G service, thus, ensuring a better customer service, including with respect to educational services. Clearwire will also collaborate with Sprint on portions of the testing, and may provide Sprint certain independent rights to conduct testing. Although Clearwire is presently requesting your consent to the entire testing plan, to the extent that Sprint conducts independent testing, we will provide you with additional information regarding that process.

SFL agrees to permit temporary operation of the Spectrum under the terms and conditions set forth in this letter. Clearwire agrees to ensure that all that all operation over the Spectrum will be in accordance with the rules and regulations of the Federal Communications Commission and the Lease Agreement between the parties. Clearwire will be filing an application for an experimental authorization to do this testing, and will do the testing in compliance with that application and the associated authorization that will be issued by the Commission.

Clearwire will also work with you to provide you with devices and/or services in accordance with our Lease Agreement regarding substantial service or once commercial services are available in the Kansas City area, whichever occurs first.

Re: Consent to Temporary Use of EBS Spectrum in  
Kansas City, Missouri in Advance of Commercial Launch

Dear John:

Instructional Telecommunications Foundation, Inc. ("ITF") is the licensee of EBS Station WHR511 in Kansas City, Missouri (the "Channels"). The excess capacity of the Channels are leased, pursuant to an Educational Broadband Service Long Term De Facto Transfer Use Agreement ("Use Agreement"), to Clearwire Spectrum Holdings II, LLC, a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). Clearwire would like to begin the use of three of those channels prior to commercial launch of that spectrum. Specifically, Clearwire would like to temporarily use Channels C1, C2, and C3 (the "Spectrum") from the date ITF's representative signs this letter through March 8, 2011 for experimentation and technical testing as described below. For this purpose, and to the extent necessary, Clearwire hereby requests a waiver of those provisions of the Use Agreement that do not permit such uses.

Through these uses, Clearwire intends to validate the features and quantitatively measure performance of the 4G Radio Access Network infrastructure in a field and lab environment. It also intends to ascertain performance of WiMAX and 4G technology under various interference environs, as well as varying channel and loading conditions. Clearwire believes that this testing will ensure a better and more robust WiMAX and 4G service, thus ensuring a better customer service, including with respect to educational services. Clearwire also plans to collaborate with Sprint on portions of the testing, and may agree to provide Sprint Nextel Corporation (or one or more of its subsidiaries, collectively "Sprint") certain independent rights to conduct testing, as described below. Clearwire acknowledges and agrees that Clearwire shall be responsible for ensuring that Sprint's tests on the Spectrum will comport with the Use Agreement (except to the degree expressly waived by ITF), will be limited as described in this letter, will conform in all respects to pertinent laws and regulations, and will cease no later than March 8, 2011. As a condition precedent to Sprint's use of the Spectrum, Sprint shall provide to ITF and Clearwire a letter memorializing the terms under which it proposes to use the Spectrum, which letter must be accepted in writing both by ITF and Clearwire. In addition, Clearwire acknowledges and agrees that any use of the Spectrum by Sprint shall be deemed a use of the Spectrum by Clearwire for purposes of the indemnification provisions of the Use Agreement.

Nadja S. Sodos-Wallace  
Senior Regulatory Counsel, Assistant Secretary  
1250 Eye Street, NW  
Suite 901  
Washington, DC 20005  
(202)330-4011  
[www.clearwire.com](http://www.clearwire.com)

ITF agrees to permit temporary operation of the Spectrum by Clearwire under the terms and conditions set forth in this letter. Clearwire agrees to ensure that all operation over the Spectrum will be in accordance with the rules and regulations of the Federal Communications Commission and, except to the extent expressly waived by this letter, the Use Agreement between the parties. Clearwire will be filing an application for an experimental authorization with the Commission to obtain independent authorization to do this testing over the Spectrum, and will do the testing in compliance with that application and the associated authorization that will be issued by the Commission.

This letter does not modify, defer, or curtail ITF's right to receive Access Right Royalties as set forth in the Use Agreement.

If there are any further questions or would like to learn more about the trials, please contact Paul McCarthy at 847-993-9631 or [paul.mccarthy@clearwire.com](mailto:paul.mccarthy@clearwire.com) or the undersigned at (202) 330-4011 or at [nadja.sodoswallace@clearwire.com](mailto:nadja.sodoswallace@clearwire.com)
