Re: Consent to Temporary Use of EBS Spectrum in
Phoenix, Arizona in Advance of Commercial Launch

Dear _____:

Arizona Board Of Regents For Arizona State University ("Licensee") is the license of EBS Stations WND497, WND496, WHF226, WLX815 and WNC664 in Phoenix, Arizona. Those Stations are leased, pursuant to a De Facto Transfer Lease to SpeedChoice of Phoenix, LLC, a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). Clearwire would like to temporarily use the spectrum licensed under those call signs (the "Spectrum") from June 1, 2010 through May 31, 2012 pursuant to an Application for Experimental Authority to be filed with the Federal Communications Commission ("FCC") by another wholly-owned subsidiary of Clearwire, Clearwire Spectrum Holdings III, LLC.

Through this use, Clearwire intends to validate the features and quantitatively measure performance of the 4G Radio Access Network infrastructure in a field and lab environment. It also intends to ascertain performance of 4G technology under various interference environs, as well as varying channel and loading conditions. Clearwire believes that this testing will ensure a better and more robust 4G service, thus, ensuring a better customer service, including with respect to educational services. Clearwire may also collaborate with our wholesale partners and vendors on portions of the testing, and may provide certain independent rights to conduct testing. Although Clearwire is presently requesting your consent to the entire testing plan, to the extent that independent testing occurs, we will provide you with additional information regarding that process.

By its signature below, Licensee consents to Clearwire's use of the Spectrum until May 31, 2012 under the terms and conditions set forth in this letter. Clearwire agrees to take all necessary steps to cause no interference to any current operations of EBS Stations WND497, WND496, WHF226, WLX815 and WNC664. There will be no commercial use of the spectrum pursuant to this experimental application. Licensee believes that its consent to this trial will benefit it and other EBS licensees. The parties acknowledge that this letter will be attached to the application for Experimental Authority to be filed by Clearwire with the FCC's Office of Engineering and Technology.

Clearwire will also work with you to provide you with devices and/or services in accordance with our Lease Agreement required to meet FCC substantial service obligations and educational services using the Clear 4G network available in the Phoenix area.

Re: Consent to Temporary Use of EBS Spectrum in
Phoenix, Arizona in Advance of Commercial Launch

Dear John:

North American Catholic Educational Programming Foundation, Inc. ("Licensee") is the license of EBS Station WHR919 in Phoenix, Arizona. That Station is leased, pursuant to a De Facto Transfer Lease to Clearwire Spectrum Holdings II, , a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). Clearwire would like to temporarily use the spectrum licensed under that call sign (the "Spectrum") from June 1, 2010 through May 31, 2010 pursuant to an Application for Experimental Authority to be filed with the Federal Communications Commission ("FCC") by another wholly-owned subsidiary of Clearwire, Clearwire Spectrum Holdings III, LLC.

Through this use, Clearwire intends to validate the features and quantitatively measure performance of the 4G Radio Access Network infrastructure in a field and lab environment. It also intends to ascertain performance of 4G technology under various interference environs, as well as varying channel and loading conditions. Clearwire believes that this testing will ensure a better and more robust 4G service, thus, ensuring a better customer service, including with respect to educational services. Clearwire may also collaborate with our wholesale partners and vendors on portions of the testing, and may provide certain independent rights to conduct testing. Although Clearwire is presently requesting your consent to the entire testing plan, to the extent that independent testing occurs, we will provide you with additional information regarding that process.

By its signature below, License consents to Clearwire's use of the Spectrum until May 31, 2012 under the terms and conditions set forth in this letter. Clearwire agrees to take all necessary steps to cause no interference to any current operations of EBS Station WHR919. There will be no commercial use of the spectrum pursuant to this experimental application. Licensee believes that its consent to this trial will benefit it and other EBS licensees. The parties acknowledge that this letter will be attached to the application for Experimental Authority to be filed by Clearwire with the FCC's Office of Engineering and Technology.

Re: Consent to Temporary Use of EBS Spectrum in
Phoenix, Arizona, in Advance of Commercial Launch

Dear John:

Instructional Telecommunications Foundation, Inc. ("ITF") is the licensee of EBS Station WLX816 in Phoenix, Arizona (the "Channels"). The excess capacity of the Channels are leased, pursuant to an Educational Broadband Service Long Term De Facto Transfer Use Agreement ("Use Agreement"), to Clearwire Spectrum Holdings II, LLC, a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). Clearwire would like to begin the use one of those channels prior to commercial launch of that spectrum. Specifically, Clearwire would like to temporarily use Channel D4 (the "Spectrum") from the June 1 through September 6, 2010 for experimentation and technical testing as described below. For this purpose, and to the extent necessary, Clearwire hereby requests a waiver of those provisions of the Use Agreement that do not permit such uses.

Through this use, Clearwire intends to validate the features and quantitatively measure performance of the 4G Radio Access Network infrastructure in a field and lab environment. It also intends to ascertain performance of 4G technology under various interference environs, as well as varying channel and loading conditions. Clearwire believes that this testing will ensure a better and more robust 4G service, thus ensuring a better customer service, including with respect to educational services. Clearwire also plans to collaborate with our wholesale partners and vendors on portions of the testing, and may agree to provide certain independent rights to conduct testing, as described below. Clearwire acknowledges and agrees that Clearwire shall be responsible for ensuring that any of our wholesale partners' and vendors' tests on the Spectrum will comport with the Use Agreement (except to the degree expressly waived by ITF), will be limited as described in this letter, will conform in all respects to pertinent laws and regulations, and will cease no later than September 6, 2010. As a condition precedent to any such use of the Spectrum, the third party user shall provide to ITF and Clearwire a letter memorializing the terms under which it proposes to use the Spectrum, which letter must be accepted in writing both by ITF and Clearwire. In addition, Clearwire acknowledges and agrees that any use of the Spectrum by the third party user shall be deemed a use of the Spectrum by Clearwire for purposes of the indemnification provisions of the Use Agreement.

ITF agrees to permit temporary operation of the Spectrum by Clearwire under the terms and conditions set forth in this letter. Clearwire agrees to ensure that all that all operation over the Spectrum will be in accordance with the rules and regulations of the Federal Communications Commission and, except to the extent expressly waived by this letter, the Use Agreement between the parties. Clearwire will be filing an application for an experimental authorization with the Commission to obtain independent authorization to do this testing over the Spectrum, and will do the testing in compliance with that application and the associated authorization that will be issued by the Commission.

This letter does not modify, defer, or curtail ITF's right to receive Access Right Royalties as set forth in the Use Agreement.

If there are any further questions or would like to learn more about the trials, please contact Paul McCarthy at 847-993-9631 or paul.mccarthy@clearwire.com or the undersigned at (202) 330-4011 or at nadja.sodoswallace@clearwire.com

By its signature below, Licensee consents to Clearwire's use of the Spectrum until May 31, 2012 under the terms and conditions set forth in this letter. Clearwire agrees to take all necessary steps to cause no interference to any current operations of EBS Stations WND498 and WHF225. There will be no commercial use of the spectrum pursuant to this experimental application. Clearwire further agrees to indemnify Licensee against any damages caused by the temporary operation of the Spectrum, including, without limitation, the payment of any fines levied by the FCC or other regulatory authority for any improper use of the Spectrum, such as interference with other channels. Clearwire acknowledges that the Licensee retains certain reservation rights to use the Spectrum, and that it may wish to access the reservation Spectrum prior to the expiration of the Experimental License. In that case, Clearwire will cease using the reservation Spectrum upon ninety (90) days written notice from Licensee. Licensee believes that its consent will benefit it and other EBS licensees. The parties acknowledge that this letter will be attached to the application for Experimental Authority to be filed by Clearwire with the FCC's Office of Engineering and Technology.

Brooklyn, NY 11205

Re: Consent to Temporary Use of EBS Spectrum in
Phoenix, Arizona

Gentlemen:

Hispanic Information and Telecommunications Network, Inc. ("HITN") is the licensee of EBS Stations WND499 and WNC558 covering Phoenix, Arizona. WND499 is leased, pursuant to Clearwire Spectrum Holdings II, LLC a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). WNC558 is leased, pursuant to a grandfathered lease to SpeedChoice Phoenix, LLC, another wholly-owned subsidiary of Clearwire Corporation.. Clearwire would like to temporarily use the channels licensed pursuant to the call signs (the "Spectrum") from June 1, 2010 through May 31, 2012 pursuant to an Application for Experimental Authority to be filed with the Federal Communications Commission ("FCC") by another wholly-owned subsidiary of Clearwire, Clearwire Spectrum Holdings III, LLC

Through this use, Clearwire intends to validate the features and quantitatively measure performance of the 4G Radio Access Network infrastructure in a field and lab environment. It also intends to ascertain performance of 4G technology under various interference environs, as well as varying channel and loading conditions. Clearwire believes that this testing will ensure a better and more robust 4G service, thus, ensuring a better customer service, including with respect to educational services. Clearwire will also collaborate with its wholesale partners and vendors on portions of the testing, and may provide certain independent rights to conduct testing. Although Clearwire is presently requesting your consent to the entire testing plan, to the extent that a third party conducts independent testing, we will provide you with additional information regarding that process.

HITN agrees to permit temporary operation of the Spectrum under the terms and conditions set forth in this letter. Clearwire will ensure that all operations over the Spectrum will be in accordance with the rules and regulations of the Federal Communications Commission and the Lease Agreement between HITN and Clearwire. Clearwire further agrees to indemnify HITN against any damages caused by the temporary operation of the Spectrum, including, without limitation, the payment of any fines levied by the FCC or other regulatory authority for any improper use of the Spectrum, such as interference with other channels. There will be no commercial use of the Spectrum pursuant to this experimental application. Clearwire believes that HITN's consent to this trial will benefit HITN and other EBS licensees. Clearwire will timely file an application for an experimental authorization to do this testing, and will do the testing in compliance with that

Clearwire Corporation
