Attention: Meg Sakellarides, Chief Financial Officer

Re: Consent to Continued Use of EBS Channel G3
Extension of Experimental Special Temporary Authority WD9XL
EBS Station WLX565

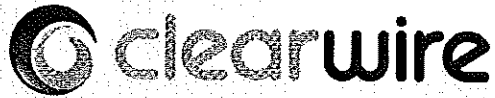

Dear Ms. Sakellarides:

Connecticut Public Broadcasting, Inc. ("CPB") is the licensee of EBS Station WLX565. Station WLX565 is subject to a De Facto Transfer Lease NSAC, LLC (Lease Identifier L000000358), a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). Pursuant to that lease, Clearwire is requesting CPB's continued consent to Clearwire's use of EBS Station WLX565 for an additional six months in association with an equipment trial.

By its signature below, Concordia hereby consents to Clearwire's continued use of EBS Station WLX565, Channel G3¹ for an additional six months to validate the effectiveness and coverage of a WiMAX system in-building and to gather field performance data. This experiment will assist Clearwire to extend the WiMAX wireless broadband experience to in-building users.

Clearwire agrees to operate on the EBS Station WLX565 in accordance with the rules and regulations of the Federal Communications Commission, and the terms of the existing lease between the parties, and to take all necessary steps to cause no interference to any current operations and to protect and preserve the status of EBS Station WLX565. There will be no commercial use of the spectrum pursuant to this experiment. CPB believes that its participation in this trial will benefit it and other EBS licensees. Pursuant to Section 2.803(e)(3)(ii) of the Commission's rules, no separate FCC authorization is required.

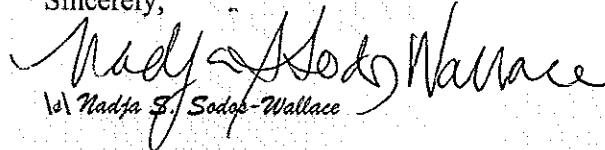

¹ The Spectrum for which consent is being given in this letter includes the following frequencies: G3 (002684.50000-002690.00000 MHz). The FCC mandated transition has been completed for the station, and the Transition Completion Notice has been filed, but the post transition minor modification application has not yet been filed. CPB is working on that application.
