(Class of station)

S-1875-EX-95

(File number)

NAME

COMSAT CORPORATION

SEE CONDITION (1)

(Location of station)

Special Temporary Authority is hereby granted to operate the radio transmitting apparatus described below:

Frequency MHz	Authorized Power (watts)	Emission Designator
1	1	1

Special Conditions:

1. This authority is for the space segment only. Satellites include all Intelsats located at POR, APR and AOR. Frequencies will be used to serve seagoing vessels.
2. The authority is conditioned on harmful interference not being caused to services operating in accordance with the Table of Frequency Allocations, namely, fixed and fixed satellite uses.
3. This authorization is without prejudice to Commission consideration of any application for permanent authority.

This special temporary authorization is granted upon the express condition that it may be terminated by the Commission at any time without advance notice or hearing if in its discretion the need for such action arises. Nothing contained herein shall be construed as a finding by the Commission that the authority herein granted is or will be in the public interest beyond the express terms hereof.

This special temporary authorization shall not vest in the grantee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein. Neither the authorization nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This authorization is subject to the right of use of control by the Government of the United States conferred by Section 706 of the Communications Act of 1934.

This authorization effective March 13, 1995 and
will expire 3:00 A.M. EST. September 12, 1995

March 1, 1995

Re: Request for Special Temporary Authority

Dear Mr. Wright:

COMSAT Corporation, by its COMSAT World Systems business unit ("COMSAT"), herein requests a grant of Special Temporary Authority from March 13, 1995 through September 12, 1995 to enable it to provide Intelsat C-band space segment capacity in the Pacific Ocean Region ("POR") via the Intelsat satellite at 180° E. to seagoing vessels of the U.S. Navy. In support of its request, COMSAT submits the following information.

COMSAT has been requested to provide service by a U.S. carrier that intends to provide Intelsat C-band communications via the 180° E. satellite to a U.S. Navy ship operating in the POR. COMSAT will provide Intelsat space segment capacity beginning March 13, 1995 consistent with its current wideband mobile experimental authorization (KA2XHN) and the Special Conditions listed therein.¹ COMSAT intends to shortly file an application to amend its pending KA2XHN renewal application to

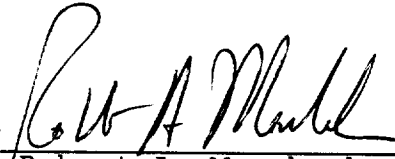

¹Although the KA2XHN authorization, attached hereto, permits service via a number of Intelsat satellites, it does not authorize COMSAT to provide service via the Intelsat satellite at 180° E. The use of the Intelsat satellite at 180° E. has been coordinated with Inmarsat.

include all INTELSAT satellites in the POR.

A grant of Special Temporary Authority as requested herein will enable COMSAT to meet the urgent communications needs of the U.S. Navy and will thereby promote the public interest.

Respectfully submitted,

COMSAT CORPORATION
COMSAT World Systems
