To Whom It May Concern:

COMSAT Mobile Communications is a Satellite Communications Company providing Inmarsat service, seeking to commission three Inmarsat-C units for test and demonstration. I am applying to the FCC for permission to use all three terminals in the USA for test and demonstration. We have forwarded our FCC Form 442 to the FCC for a license to operate these units in the domestic US.

Sincerely,

Lilanie Geiger
Manager Service Development
COMSAT Mobile Communications
