Federal Communications Commission
Experimental Radio Service
P.O. Box 358320
Pittsburgh, PA 15251-5320

To Whom It May Concern:

COMSAT Mobile Communications provides satellite communications services to ships and land transportable units virtually anywhere in the world through earth stations in Connecticut, California, Turkey and Malaysia.

COMSAT Mobile Communications conducts testing and monitoring of the quality of services being provided to customers. One of these services is Standard-B. These terminals will be used primarily in Connecticut and California to verify the quality and continuity of the B service.
