Subject: Additional Information Request

Message:

The experimental STA request filed under File No. 0615-EX-ST-2020 was a supplemental request to the experimental STA granted to Comtech Systems by the Commission on April 2 under File No. 0356-EX-ST-2020, Call Sign WQ9XIA. The request under File No. 0615-EX-ST-2020 simply desired to change the previously granted frequency of 4.7 GHz to 4.8 GHz with no other changes to the frequencies previously granted. The previously granted frequencies were 4.43 GHz, 4.53 GHz, 4.7 GHz, and 4.93 GHz.
As noted in the original experimental STA request granted by the Commission under File No. 0356-EX-ST-2020, the purpose of the request is to participate in the 2020 Trident Spectre military technology demonstration exercise to be held in Fort Story, Virginia.
Comtech will adhere to the Special Conditions as issued on the original STA grant which included-
Special Conditions:
(1) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
(2) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
(3) All operations shall be coordinated with NASA LARC POC, Lee Joyce at 757.864.6737 or lee.joyce@nasa.gov, at least 3 days prior to operations.
