Message:

Dear Mr. Timothy Krout:

Please amend your application by lowering the mobile ERP to the same level as the airborne ERP, by specifying an area of operation smaller than the Continental United States (CONUS) and by choosing frequencies outside the 2402 MHz to 2417 MHz amateur band. Be mindful that choosing a smaller area of operation may still be cause for concern if there is a probable potential for interference to occur.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of February 11, 2002 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
