Subject: ATTN: Mr. Benham Ghaffari Regarding Contour Networks Inc. Confidentiality Request

Dear Mr. Ghaffari,

I have received your correspondence for Contour Networks Inc. regarding our request that our recent Experiment request be treated as confidential. Please find the details of this correspondence below for your reference:

Applicant: Contour Networks Inc.
File Number: 0266-EX-CN-2019
Correspondence Reference Number: 47554
Date of Original Email: 04/22/2019

Having reviewed this correspondence, Contour Networks Inc. would like to rescind its request for confidentiality. We would appreciate any guidance you can provide on the best method to achieve this - your email notes "If this is an error please select "Non-Confidential" button". However, in responding to the correspondence via the OET website, there is no location to select this button. May we specify our desire to rescind the confidentiality request directly in our response via "Reply to Correspondence"? Or do we need to refile the request from the beginning (including payment, etc.) to note the non-confidentiality?

Thank you for your attention to this matter.

Best regards,
Colm Sharkey

SVP, Operations
Contour Networks Inc.
