Subject: Additional Information Request

Message:

1) The technical description says satellite will be launched in 2020. Is this still accurate? If not provide an updated experiment narrative. Verify all the other details in your technical description as well.

Answer: An updated technical description, showing a launch date August 2021, has been uploaded.

2) Provide SpaceCap Calculations (MDB file). Verify that the information in your form 442 matches to that in your SpaceCap. Please remember to correct all the fatal errors in the SpaceCap file.

Answer: The Spacecap file was submitted.

3) Provide a completed NTIA Space Record data form.

Answer: A Completed NTIA form has been uploaded.
