

Exhibit 2 – Antenna Installation Details

The CHL rotating antenna will be installed on top of a 30 foot tower at the Federal Aviation Administration's (FAA) Unmanned Aircraft Systems (UAS) Test Site at Griffiss International Airport (KRME) in Rome, NY. The antenna and its mounting pedestal are about 7 feet tall. A picture of the antenna towers is shown below. This photo shows earlier antennas used for earlier Surface Movement Radar test evaluations for the FAA.
