FCC FILE NO. 0121-EX-PL-2006

---

Message:

Curtis Wright Controls, Inc. Embedded Computing (CWCEC), by its attorneys, has amended its application in light of the attached waiver order of January 25, 2007. See filing of this date. Please be advised that operation of the experimental stations at one site in Littleton, Massachusetts and two sites in Deven, Massachusetts, will be in compliance with the technical requirements stated in the Order. The purpose of these experimental stations will continue to be to test and develop UWB radar surveillance equipment.
