Subject: Additional Information Request

Message:

1) Mobile License doesn't mean the state of Texas. The chances of approval increase if you were to select fixed geographical coordinates and radius of operation instead of entire state of Texas. The best advice I can give you is to add two or three antenna sites to your application with a specific Lat/Lon value and radius of operation. Pick a location for Forest, one for Sand Dunes, and so on. Under each site you can have those three frequencies that you're requesting. For each location, also fill out the city/state info.

2) Your email and phone are already publicly available when you file for this application. That information is also used as the STOP Buzzer Point of Contact purpose. So, do you want to mark this "Confidential" document as "Non-confidential"?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 09, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

DO NOT Reply to this email by using the 'Reply' button. In order for your response to be processed expeditiously, you must upload your response via the Internet at <https://apps.fcc.gov/oetcf/els/index.cfm> by clicking on the "Reply to Correspondence" hyperlink.
