Message:

While your application is being reviewed by the federal government, please answer the following questions:

1. Would it be possible to limit the frequency band to either 2400-2417 MHz or 2450-2483.5 MHz and stay out of 2417-2450 MHz? If so, the requested bandwidth 83.5 MHz will also need to be adjusted accordingly.
2. Why can't your testing be done on the US soil instead of Kwajalein (Marshall Islands)?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 20, 2011 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
