

EXHIBIT 1 (from FCC Form 442, number 10)

- a) We will be using our Inmarsat-C terminal to send and receive small data files and position reports to and from a mobile unit in the field. The unit will be used both in and outside of the United States, primarily in Africa by the United Nations department of Humanitarian Affairs. Usage inside of the United States will primarily involve development work on our part.**
- b) We wish to assist in the humanitarian relief effort taking place in Rwanda, specifically in assisting the U.N. Department of Humanitarian affairs. We are a mapping company, and we will be using our mapping technology in conjunction with the Inmarsat-C unit.**
- c) We will be providing real time mapping information to the U.N. in the field, Something which is new, to our knowledge at least.**
