The coordinates listed for this application are for the Delta Airlines' hanger area at Hartsfield-Jackson Atlanta International Airport in Atlanta, Georgia. I double checked the coordinates supplied in the application (33-39-07 N; 084-25-24 W) against Google Earth (and the Wikipedia page for Hartsfield-Jackson), and the coordinates on file are accurate. The coordinates in the application are not located in Tennessee as mentioned in the email received this morning.
