

Digis, LLC
Amendment to Application
0370-EX-PL-2016

Digis, LLC dba Rise Broadband (“Rise Broadband”) hereby confirms that it will notify users that any non-approved devices are for testing only and must cease operation at the end of the experiment. Rise Broadband further acknowledges that it will need to retrieve the devices from the users at the end of the trial.

In particular, all users will be notified that the service they will be receiving is being provided in part or in whole under experimental authority, and that as a condition of the experimental license, Rise Broadband may be required at any time, without prior notice, to cease operations in the spectrum between 3550 and 3650 MHz.

In addition, Rise Broadband acknowledges and will notify users that all customer premise equipment authorized under the experimental license remains the property of Rise Broadband, and must be collected or rendered inoperable at the conclusion of the trial. At the end of the trial, Rise Broadband will either:

- 1) Shut off the service immediately, stop billing users for the service and post a public notice at www.risebroadband.com/utahtrial, and collect or render all customer premise equipment inoperable, or
- 2) Change the frequency and operating parameters of some or all of the customer premise equipment that is part of the trial to parameters authorized under Part 90, Subpart Z of the FCC rules (which may materially impact network capacity, performance, and quality of service), post a public notice to www.riseboradband.com/utahtrial, and allow users to opt out of the modified service offering with no further obligation to pay for the service.
