

Exhibit 1

In connection with this renewal application for Station WF2XVW, the following is noted:

- The contact for inquiries related to this application is as follows:

Dan Ehrenhalt
Senior Systems Engineer
Tel: 850-302-3833
E-Mail: dehrenhalt@drs.com

- There is currently pending an application (File No. 0147-EX-ML-2013) to modify the existing WF2XVW license to change the transmitting coordinates for these facilities to reflect a relocation of the facilities to Ft. Walton Beach, FL.
- Once the above-referenced modification application is granted, the Stop Buzzer information (specified in Special Condition 5) for the new location will be as follows:

Stop Buzzer information:
Terry Weimer – 850-543-9974
Dan Ehrenhalt – 716-418-0182

- The operations under this license are not currently associated with a US government contract. Accordingly, upon grant of the renewal, it is requested that Special Condition 6 be deleted, and that the Station Class be changed from “XC” to “XD” to permit operation under the license for internal research and development activity, as well as future operations in support of an anticipated contract with the Italian Air Force.
