From: Doug Young
Date: April 28, 2020

Subject: Request for Info - File # 0689-EX-ST-2020

Message:

1. Submit a realistic start date that is at least 15 days from the date you respond to this inquiry.
2. Enter coordinates for each testing location.
3. The frequency band 4940-4990 MHz is allocated for public safety. According to 47C.F.R. §5.85(d), "Applicants in the Experimental Radio Service shall avoid use of public safety frequencies identified in part 90 of this chapter except when a compelling showing is made that use of such frequencies is in the public interest. If an experimental license to use public safety radio frequencies is granted, the authorization will include a condition requiring the experimental licensee to coordinate the operation with the appropriate frequency coordinator or all of the public safety licensees using the frequencies in question in the experimenter's proposed area of operation." Submit an exhibit showing a compelling reason to use public safety frequencies and affirm that you will coordinate with the appropriate frequency coordinator or all of the public safety licensees using the frequencies in question in your proposed areas of operation.
4. Will there be any jamming involved? Jamming is not allowed on an experimental STA.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of April 28, 2020 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
