

Modification Statement

In the grant of renewal of experimental license call sign WH2XAZ, DRS Sustainment Systems, Inc. was advised of special condition #3, that “nationwide use has been removed from the license due to harmful interference anticipated to Army operations.”

Accordingly, DRS Sustainment Systems, Inc., by means of this Modification Application, is more specifically stating the location of its current testing operations, in St. Louis, Missouri, in lieu of the previous license for nationwide use.

Simultaneously, the company is removing the Tucson, Arizona location from the license.

No other details of operations are changing. For information about this experimental license operations, please refer to original Exhibits 1-3, File Number 0067-EX-PL-2014; and Exhibit 1, File Number 0011-EX-AU-2014.
