

Exhibit 1

By the instant application (“Application”), Commission consent is sought to the *pro forma* transfer of control of DRS Tactical Systems, Inc. (the “Current Licensee”), the licensee of Experimental Radio Service Stations WG2XJA and WG2XBD (the “Stations”).

Currently, 100% of the shares of Current Licensee are owned by its immediate parent DRS Tactical Systems Global Services, Inc., which in turn is owned by two intervening subsidiaries, with the ultimate corporate parent being Finmeccanica - Società per azioni (“Finmeccanica”) - an Italian corporation a majority of whose stock is publicly traded.¹ Pursuant to the merger transaction which is the subject of this Application, the following will occur:

- Current Licensee will be merged with and into its sister company DRS RSTA, Inc. (“DRS RSTA”). DRS RSTA is owned 100% by its immediate parent DRS Technologies, Inc., and like Current Licensee, DRS RSTA’s ultimate corporate parent is Finmeccanica.
- In addition, upon completion of the transaction:
 - o Current Licensee will cease to exist, and DRS RSTA will be the surviving entity; and
 - o The ownership of DRS RSTA, up to the ultimate parent, will remain unchanged.
 - o DRS RSTA will be converted to a Limited Liability Company under Delaware law statutes permitting a conversion of a corporation to a LLC. The entity, however, will retain its federal tax ID number. In addition, it is intended that the corporate name of that same entity will be changed to “DRS Network and Imaging Systems, LLC” (the Commission will be advised if a different corporate name is ultimately employed) and it will be this entity which will be the post-merger licensee for the Stations and will own and operate the assets associated with the Stations.

Upon Commission approval of this Application and consummation of the transaction, the Commission will be requested to update its records to specify “DRS Network and Imaging Systems, LLC” (or if a different name is ultimately employed, such different name) as the post-merger licensee for the Stations under the FRN for that post-merger licensee entity (“Post Merger Licensee”), which is 0022976112.

Identification of “Transferor” entity – DRS Tactical Systems Global Services, Inc.

(FRN – 0021030051)

This entity currently holds 100% of the stock of the Current Licensee.

¹ Due to the nature of the license involved in this transaction, a foreign ownership ruling pursuant to Section 310(b)(4) of the Communications Act is not required.

Identification of "Transferee" entity – DRS Technologies, Inc. (FRN - 0011475324)

This entity owns 100% of DRS RSTA, Inc. (which will be the surviving entity of the merger and which will - upon completion of the transaction – be converted to an LLC and become the Post Merger Licensee under the name DRS Network and Imaging Systems, LLC")

The Transferee DRS Technologies, Inc. has the qualifications necessary to acquire control of the Stations. The proposed transaction is *pro forma* in nature. Because all of the parties involved in the transaction are indirect wholly-owned subsidiaries of Finmeccanica - Società per azioni (the ultimate corporate parent), the transaction does not constitute a "substantial change in ownership or control" of the subject Stations pursuant to Section 309(c)(2)(B) of the Communications Act of 1934, as amended, 47 U.S.C. § 309(c)(2)(B).

For all of the foregoing reasons, it is respectfully submitted that the proposed transaction will serve the public interest and the Commission should grant its consent to the instant Application.

Below, the pre-merger and post-merger ownership of the licensee of the Stations is depicted.
