Re: Duke University

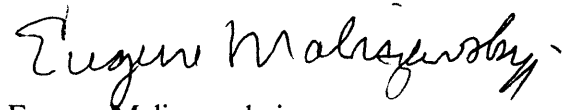

Dear Ms. Dortch:

On behalf of Duke University, we are submitting herewith its replacement application for renewal of the license for Experimental Radio Service station KF2XDP operating in Beaufort, North Carolina as you had requested.

Duke University filed its renewal application with Mellon Bank on January 30, 2002, along with the University's check No. 033827 in the amount of \$50.00. You verified that the FCC received the application filing fee under FCC fee code 0201318320164001. However, the application was not directed to your offices for an unknown reason. You then requested that we provide you with a replacement application that contained an original signature so that you could process the renewal application to grant. On April 17, 2002, Nancy Hey of your office located the original and returned it to the University stating the filing was untimely. Therefore, we are now providing you with the original date stamped application and the replacement application for processing.

Please direct any questions or correspondence concerning the above matter to this office.

Very truly yours,

A handwritten signature in black ink, reading "Eugene Maliszewsky". The signature is written in a cursive style with a large, stylized "E" and a long, sweeping underline.

Eugene Maliszewsky
Director of Engineering &
Licensing – Private Radio
