

Exhibit 1

In an effort to reduce administrative burden on the Commission while still addressing current operational requirements, this application is submitted to reduce the number of locations authorized under the WK2XOG license by deleting 3 existing locations, and to increase the radius of one existing location, as follows:

- Delete the following locations:
 - Existing Location #1 (34-36-17 N.Lat.; 086-37-43 W.Long.)
 - Existing Location #5 (34-59-32 N.Lat.; 086-38-57 W.Long.)
 - Existing Location #6 (32-13-17 N.Lat.; 085-28-18 W.Long.)
- Expand radius of Existing Location #2 to 35 km in order to accommodate current operational requirements. This radius will now encompass Locations 1 and 5. Although Location 6 (Hurtsboro, AL) falls outside this expanded radius, it is no longer required for the experiment.
