Special Conditions:

- (1) Due to the frequency being allocated for radiolocation, this experimental station shall not be used for UAS Detect and Avoid (DAA) operations.
- (2) Operations at White Sands Missile Range (WSMR) must be scheduled as a WSMR Range Mission through the assigned Range Sponsor. Final authorization to radiate is contingent upon successful scheduling and de-confliction of both spectrum, and airspace, with other regional operations.
- (3) Operations at the Yuma Proving Grounds locations must be coordinated with the YPG Spectrum Manager (Steven Sparks) at 928-328-7144 prior to any use.
