

Exhibit 2

Explanation of Amendment

This amendment to the pending application under File No. 1369-EX-ST-2017 is being filed in order to modify the requested frequency range to specify: 1770-1850 MHz for all locations and antennas.

In light of this amendment, the second-to-last paragraph of Section 2 of Exhibit 1 is hereby amended as follows:

“The digital datalink can operate on any of **20-26** channels of 1-MHz spacing within the frequency range of 1812 MHz to **1839** MHz. The requested action frequency range represents the maximum usable emission bandwidth when operated on the lowest and highest available channels.”

No other changes to the application are being made.
