Dear Mr. Kennedy:

The experimental license that has been requested is for the development of UHF product, primarily for the federal market. As an example, we have several federal agencies that purchase equipment from us including the Justice Department, Civil Air Patrol, and others.

We understand that these licenses will be for narrowband channels, i.e. 12.5 kHz bandwidth.

Thank you for your consideration.

Regards,
John Oblak
Chief Engineer,
E.F. Johnson Co.
