

MEMORANDUM FOR: FEDERAL COMMUNICATIONS COMMISSION

FROM: EAST ELEMENTARY SCHOOL RADIO CLUB
WB9XWC

SUBJECT: EXPERIMENTATION PROPOSED

MEMORANDUM...

This applicant proposes continuing in force, under license, station operation currently authorized by STA as WB9XWC. This experimentation is a scientific inquiry into the obstacles to radio wave propagation. This further teaches students proper transmitter and equipment operation technique, and has proven an unconditional success so far under the STA. As such, this program of experimentation has been incorporated into the curriculum for continuation at East Elementary. Consequently, we seek license to continue WB9XWC.

Respectfully Submitted:
