FCC File # 0088-EX-ST-2004

---

Message:

REF: Application #0088-EX-ST-2004

Dear Mr. Kennedy:

Our experimentation involves both indoor and outdoor comparisons of propagation characteristics, so I couldn't honestly tell you there is a "strict" indoor limitation; however, if our outdoor propagation testing poses any problem because of the power output being stated in the application, I can attenuate the power by whatever amount the FCC deems sufficient to protect others from interference. Again, thank you for the question and the attention to our application. For the East Elementary School Radio Club, I am...

Yours very sincerely,

/s./ James E. Whedbee, M.Ed.
