

Mr. Whedbee,

Thank you for your inquiry regarding renewal of East Elementary School Radio Club's experimental license, call sign WD2XIW, which expires on July 1, 2006. According to our records, your renewal was filed on May 26, 2006. In general, we process applications on a first come, first served basis and you can be assured that your application will be promptly processed in turn. However, if we are not able to process your application prior to July 1, our rules in 47 C.F.R. Section 1.62 permit you to continue operating under the provisions of your current license until such time as we are able to act on that application. I hope that this information is helpful.
