Subject: Request for Info - File # 0401-EX-CN-2021

Message:

Hung Le,

This experimental radar requires at least 10 MHz for FMCW. Could I change the frequency range on the application to be 5830 - 5850 MHz in the Amateur and Amateur satellite band? I realize the frequency range I originally requested is very crowded, and this new frequency range might be easier to show non-interference with.

Thank you,
Steve
