DISMISSED-WITHOUT PREJUDICE

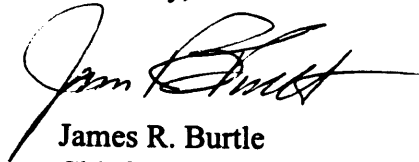

Dear Robert T. Hart,

This refers to application, File No. 0026-EX-ST-2001, for an experimental license.

You are advised that the Commission is unable to grant your application for the facilities requested. The FCC's Mass Media Bureau determined from its analysis that the experiment, as proposed, would not yield any useful data. The chief reason for this determination is that the interference the proposed site currently receives from cochannel and first adjacent channel would render the results obtained from the experiment unreliable.

James R. Burtle
